COPPER MAGNET WIRE

Product Data Sheet

CW NOMEX[®]
Class 220°C Copper

NEMA MW 60-C

DESCRIPTION

CW NOMEX[®] magnet wire is copper wire wrapped with polyamide paper in various constructions.

The polyamide paper used is 410 Nomex[®] which is a calendared insulation paper which offers high dielectric strength, mechanical toughness, and flexibility.

APPLICATIONS

- Dry Type Transformers
- Form wound coils

FEATURES & BENEFITS

- Excellent dielectric strength
- 220°C continuous operating temperatures
- Excellent thermal properties

AVAILABILITY

CW NOMEX[®] is available in .002" 410 Nomex[®] in various lapping options and in multiple layers over enamel or bare product.

Please consult the Craig Wire service team for more detailed information.
