

COPPER MAGNET WIRE Product Data Sheet

CW 200 SPG/DPG Class 155°C Copper

DESCRIPTION

CW 200 SPG/DPG magnet wire is a single or double layer of polyester and glass fibers over enamel. It is available unfused or varnish coated.

APPLICATIONS

This combination results in an insulation system that provides abrasion resistance for more severe winding applications.

- AC Motors
- Generators
- DC Motors
- Tractor Motors

NEMA MW 46-C

FEATURES & BENEFITS

- Excellent mechanical properties
- 155°C continuous operating temperature
- Resilient abrasion resistant surface
- Excellent toughness

AVAILABILITY

CW 200 SPG/DPG is available on copper conductors in various builds. Polyester glass is also available over CW 200 Quad and CW 200 Plus enamel.
